FOR IMMEDIATE RELEASE

KORDON®, Division of Novalek, Inc. introduces Rid•Fungus™ - a 100% organic fungal disease treatment for aquariums. Rid•Fungus is formulated using only the finest all natural ingredients available.

Especially helpful when used with sensitive fishes and invertebrates that cannot tolerate stronger chemical based fungal treatments, Rid•Fungus does not require daily water changes that can further stress delicate specimens.

Rid•Fungus is an effective treatment, not only for fungus such as Saprolegnia and Achlya, but also for the full range of single-celled external protozoan and dinoflagellate infections of fishes. Rid•Fungus is compatible with all Kordon water conditioners and fish medications. NOTE: safe for use in all kinds of aquariums, fresh or saltwater, including reef and live rock

Item #39844 - Rid•Fungus™ - 4 oz. - treats 240 gallons

Item #39856 - Rid•Fungus™ - 16 oz. - treats 960 gallons
